

# Standard benchmarks: linear elastic tests

## Standard benchmarks: linear elastic tests

---

In this section:

- [LE1: Plane stress elements—elliptic membrane](#)
- [LE2: Cylindrical shell bending patch test](#)
- [LE3: Hemispherical shell with point loads](#)
- [LE4: Axisymmetric hyperbolic shell under uniform internal pressure](#)
- [LE5: Z-section cantilever](#)
- [LE6: Skew plate under normal pressure](#)
- [LE7: Axisymmetric cylinder/sphere under pressure](#)
- [LE8: Axisymmetric shell under pressure](#)
- [LE9: Axisymmetric branched shell under pressure](#)
- [LE10: Thick plate under pressure](#)
- [LE11: Solid cylinder/taper/sphere—temperature loading](#)
